

# *“I only want to Touch it!”*

The purpose of this IFGS game; to build a little political background and assure certain intrigues as needs be.

Thieves' tourney all level thieves.

Risk: 3 (0 if you BF\*), 7 if you don't know when to run, 9 if unable to flee or avoid danger.

Mental: 5 (0 if you BF\*.)

Fighting: 5 (0 if you BF\*.)

Physical: 4-6 (0 if you BF\*.)

(\*to BF; do nothing but sit around and whine)

This game is mostly thievish with political eventedness. All classes are not available to play! It is for thieves of any level. However any with sufficient cause can ask dispensation to attend. Such dispensation would probably be granted because your character history warrants and magic items grant you the overall equiv. of duel class "/thief" to your character. Also political cause to attend would be grounds. As would viscous and deadly hatred of another attendee which shall now pay!

***"In service to his Royal Majesty King Lionel, the regent Prince Mathris has called upon Lord Lyle to gather all those of discriminating senses, (read Thieves!) to inspect a document for suspected forgery"***

Decrees were delivered to all guild halls, town squares, and inns.

*"all practitioners of stealth, By order of the regent Prince Mathris for a period of one month all pending fugitives may travel unhindered. No bounty shall be paid and no harm shall befall any not currently engaged in larceny. This shall allow any who wish to attend the Prince's thieves festival. Your Prince has need of discriminate senses to catechize a document, so as to verify its authenticity. For services rendered, each presenting himself for said inspection shall receive payments not less then one hundred Gold per level. In deference to the special nature of the day, the only law shall be thou shall not kill. All other crimes are for the attendants to deal with amongst themselves. As no dweller of shadow likes to parade himself, all those of nimble skill should attend even those lacking the requested detect. A tourney especially geared to your ilk shall feature a few contests;*

***1<sup>st</sup> Lock pick challenge, series of locked objects with reward inside commensurate to challenge.***

***From those that picked all, best time reward for top 3-5.***

***2<sup>nd</sup> Pick pockets. All attendants shall be given a token. Should any thief turn in another's token, they shall score a point.***

***This shall last all day and be awarded at tourney's end. Highest point score shall receive enviable and unannounced treasure. Additional lesser prizes of no real merit.***

***3<sup>rd</sup> Dagger throw. Accuracy and speed count. Modest reward for top, minor for contenders.***

***4<sup>th</sup> Timed dungeon-ette. Locks and traps for descent prizes. (yes spelling is correct!)***

***5<sup>th</sup> Gave robbing is hard. Undead, curses, traps, and gold.***

***6<sup>th</sup> Blind dagger melee. Blindfolded and facing, the combatants must hit what they can not see.***

***7<sup>th</sup> Let sleeping lies lay. Each contestant must take something from a box, each contestant must discern who took what while concealing what they took. Truth sense, force etc fully allowed.***

***8<sup>th</sup> Come back alone. Each contestant must kill dagger all other contestants. Each thief has one kill dagger per contestant. Doesn't count toward their daily allotment and they can't use any of their allotment.***

*Booking of bets on the entrants is run by order of the Don (less 10% for house)*

*Also attending the esteemed Fagen esq.; merchant of ill gotten goods.*

*Additional; fairy grove and fountain, druidic altar of life, do or die challenge, pain, suffering... oh, and*

Rumors;

Note posted on the wall of various discreet guilds and all Casinos of the Don;

"Any willing to undertake "recovery" and return of item. Discrete, inappropriate but not immoral.

Contact Bill Sikes; Mathris' thieves tourney. Good reward."

"Did you hear? Lyle is going to have the writ of ascension verified."

**"Jumegevan dogs, of course the letter is false. They are only concerned with their power games. Who cares! ' Just hope they kill each other off. "**

*"The Fiergyn's are planning an attack to steal the writ, these barbarians will kill all who are present at the inspection. "*

"That necromancer that attacked Runelore, it's got followers here to ...(the speaker seems to notice something and then leaves quickly.)"

"Lyle's a Cadrylin. He is just trying to destabilize the kingdom so they can make a profit."

"Yeah, sure, pardons and free passage. It's just a trap by those J Edgar folks to catch all the family at once."
